PROGRAM CONDITIONS

- Quota 1** The quotas to be allocated to the programs that accept international students and the special conditions, if any, are determined by the decision of the Senate. The quotas to be determined for teaching programs should not exceed 10% of the undergraduate student quota of the relevant year for the said program. Candidates who have graduated from high school or equivalent vocational school who implement a program for a profession should carefully examine Table-6 before determining their preferences for this program.
- 22**
- 23** Students who enroll in this program and cannot successfully complete the preparatory class within two years despite attending the foreign language preparatory class are dismissed from the program. Students who are dismissed from the program due to failure in the preparatory class can enroll in an equivalent program whose language of instruction is Turkish in their own higher education institution, if any. However, if they request, these students can be placed centrally in one of the programs whose language of instruction is Turkish, provided that the relevant score of the student from the YKS scores is not lower than the base score required to enroll in the program in which they will be placed, as of the year of registration, for once by the Presidency of the Measurement, Selection and Placement Center.
- 24** The language of instruction is English.
- 34** A one-year compulsory Preparatory Program is applied in the language of instruction of the program, and those who pass the proficiency exam in the relevant language at the end of the program are directly enrolled in the first year. The preparatory class is not included in the years shown in the education period column. The language of instruction in this program is at least 30% English.
- 171** The language of instruction is French.
- 320** Those enrolled in a formal associate degree or undergraduate program in higher education institutions will not be able to choose this program.
